Purpose	Emptying cycle 14 days. For residual waste such as: nappies, hygiene articles, porcelain, vacuum cleaner bags, outdated medicines.	Emptying cycle every 4-weeks. For all card, paper and cardboard, and also paper books and files.	May - Oct. weekly Nov. - Apr. Every 14 days For all kitchen and garden waste from private households (compulsory since 1998 - except waste for self-composting).	Collection 14-day cycle For all display goods packaging except card, paper, cardboard, and glass containers.	Collection only by arrangement Bulky waste includes all household goods which, because of their size, do not fit in the residual waste bins.	Deposit times workdays from 7 - 20 h Bottles and glass containers sorted by colour (white / green / brown). For these, containers are available in public areas.	Batteries ↓ Green boxes at all sales points Energy saving lamps ↓ Take-back in building materials yard Large electrical goods ↓ For collection register with bulky waste extras. Small electrical goods ↓ To building materials Chemicals ↓ Small amounts of hazardous waste (special collection times - see the reverse side of the waste stuff calendar)
Information	Residual waste is incinerated in Frankfurt's waste fed power station to reduce its volume and extract energy.	Waste paper is a recyclable material; it can be recycled up to seven times without a loss in quality..	Wrap wet waste in newspaper Allow wet grass cuttings to dry for 1-2 days.	Yellow sacks are distributed once a year to all households. More can be obtained from the citizens bureau or the municipal building yard (Bauhof).	Bulky waste for collection must be registered with the waste collector. www.knettenbrech.de Tel.: 06173-7034567 (Mo-Fr 8-12 Uhr)	Red, blue, an other coloured bottles belong in the green-glass container.	
Not allowed	Batteries, energy saving lamps, chemicals, electrical goods.	Stripped wallpaper, photos, drink containers, badly soiled paper.
